Education

Dr. D.Y. Patil College Of Engineering And Innovation

Bachelor of Engineering in Computer Engineering, CGPA: 6.43/10

Nov 2022 – Jun 2026

Pune, Maharashtra

Kamal Nayan Bajaj High School and Jr College

HSC - Maharashtra Board, Percentage: 69.33

Jun 2020 – Mar 2022

Pune, Maharashtra

Kamal Nayan Bajaj High School and Jr College

SSC - Maharashtra Board, Percentage: 92.20

Mar 2020

Pune, Maharashtra

Internship

CODTECH IT SOLUTIONS PVT.LTD | *Full Stack Web Development*

Jan 2025 – March 2025

- Containerized a full-stack application using **programming languages**, creating an efficient and portable environment for development and deployment.

Projects

Food Waste Management | *HTML, CSS, JavaScript, PHP, Xampp Server, MySQL*

- Designed a **Food Waste Management** website to efficiently manage excess and leftover food from donors such as hotels, restaurants, and marriage halls, and distribute it to those in need.
- Implemented three modules: User module for accepting food donations, Admin module for listing NGOs and charities, and Delivery Person module for pickup and drop-off services.
- Managed a database to track donor and recipient information accurately.
- Integrated GPS tracking and notification systems to optimize logistics and ensure timely pickups and deliveries.

Marvellous Student management Portal | *Java, Springboot, MongoDB*

- **Education:** Developed a Full Stack system for managing batches and student records,
- **Scholarship Finder:** Implemented CRUD operations with RESTful APIs and NoSQL storage.
- **Community Forum:** Designed a Java based client interface for seamless interaction.

Fuel Delivery System | *Java, Kotlin, Android Studio*

- Developed a Java-based application that enables customers to request on-demand fuel delivery at their preferred location.
- Implemented modules for customer registration, fuel booking, order tracking, and delivery management. Designed features for order validation, delivery status updates, and efficient request handling.
- Improved fuel accessibility and convenience by streamlining the fuel ordering and delivery process through an automated application.

Technical Skills

Languages: C (Advanced), C++ (Advanced), Java (Beginner), PHP (Beginner), SQL

Databases: MySQL, MongoDB

Tools: GitHub, VSCode, Visual Studio, Eclipse, DevCpp

Achievements and Extracurricular Activities

- Represented School and College at the **State Level** in **Basketball** in 2018 and 2020.
- Assisted in organizing the college sports event **Elevate** by communicating with different teams and securing sponsorships.
